

# Weekly Review

10<sup>th</sup> May 2019

## We love a challenge!

The children have really impressed us with how independent they are at completing their class challenges recently. Each week they have 3 challenges to complete. Class challenges are set up around the classroom for children to access during the week. Once completed, they have the responsibility of showing the adult their work and then putting a challenge sticker in their books. At the end of the week if all children have completed their challenges we celebrate by having a biscuit in the nature reserve or green grass area.

### Home learning:

This week please review phase 3 sounds (already sent out in your child's plastic wallet). We are moving on to a new phase and therefore would like to make sure the children are using their phase 2 and 3 sounds confidently.

### Notes.

Thank you for being so organised by providing your child with a swimming kit this week. Unfortunately, we did not make it to the pool as the weather forecast promised thunder storms which we quite enjoyed hearing from the classroom! Instead, the children had a normal PE session with Mr Gawthrope. Please ensure your child has a swim kit on their peg on a Monday and Wednesday in case we do use the pool. Many thanks.

Our school trip details will be sent out soon so please look out for the details. We are going to the Sea Life Centre at Hunstanton on the 18<sup>th</sup> June. We will need some parent helpers for the trip so if you are able to help out on the day then please let us know. We will choose on a first come first serve basis.

As swimming gets underway, we had a visit in assembly this week from Elite Swimming: Expert tuition combined with small classes and warm, clean pools allows us guarantee a vast improvement in a very short space of time. 3 years and up 01223 633699.
