

CLASS CEDAR'S WEEKLY REVIEW

Friday 13th November 2015

What a busy week Cedar Class have had! We have discussing Remembrance Day, having our photographs taken, attending Movie Night and being spotty for Children in Need - alongside working hard with our learning this week.

Mrs Seymour and Mrs Lindon.

This week we have been...

Discussing why and how we remember people.

DSHF

Science

As Palaeontologists we have been investigating how fossils are formed and how they help us to understand the world. We have also discovered that many fossils have been found nearby in Barrington! Cedar Class turned their hand to making their own fossils and will add these to our classroom display.

English

From 'the lake gleamed like a mirror' to 'the mountain was as tall as a pyramid', the children have been incredibly creative in writing their own story setting using similes after watching an animated story from another culture. They were able to discuss the similarities and differences between the story and their own lives, and empathised with the characters.

Maths

Time has moved on with the focus on using both analogue and digital clocks to tell the time to five minutes. We have been using our knowledge of time to investigate how long it would take to us to carry out activities - whether it is eating our lunch or doing our homework!

Dates for your diary:

Saturday 28th November - Christmas Capers 2-4pm.

(Please start thinking about donations for the tombola, teddy tombola, class hampers and rainbow stall and signing up to volunteer on the day!)

Wednesday 9th December - Christmas Carol Concert 6pm.

Tuesday 15th & Wednesday 16th December - KS2 Christmas Production 6.30pm.
