

Class Cedar Newsletter

Creativity has been the focus this half term as Cedar Class developed these skills in persuasive writing, during Art Week, designing and building Anglo Saxon villages and tackling maths investigations.

We have been reflecting upon our learning from the year with the children sharing their highlights of what they learnt and it has been lovely to hear their enthusiasm towards school life. We have really enjoyed our year with Class Cedar and we wish all the children lots of luck as they move up to Year 4 in September.

The children are all now ready for their summer holiday, and we wish you and your family a relaxing and enjoyable summer.
Mrs Lindon & Mr Bray

ART WEEK

I enjoyed Art Week because I learnt how to make an origami bunny and it was really fun. You can make so many things out of a piece of paper. We also made an art creation using paint and balls, forks and rollers. These made splodges and dots to make an abstract painting.

ENGLISH

We have been learning about persuasive writing to get people to buy things and do things that we want them to do. I wasn't good at persuading before, as I just thought I had to say please. Now I have learnt all sorts of different persuasive words and now I can! I even managed to persuade my mum to buy me some sweets from the shop.

We have also learnt how to write recounts using the 5Ws (what, when, why, where and who). This helped me write down everything we did on our school trip.

MOVING UP MORNING

It was exciting because it was a new environment. Our Maths activity was fun. We made a domino window where all the sides had to add up to the same number. It was quite tricky because I didn't have many dominoes with high numbers to use. I'm looking forward to having a new teacher and classroom.

MATHS

My favourite topic was Time because I didn't know how to tell the time on an analogue clock. Now I can tell the time really well and I won't be late for things!

By Henry

SPORTS DAY

We had obstacle races, egg and spoon races and a mini marathon during Sports Day. I felt quite tired at the end of the day. We had a really fun time doing it and everyone tried their best.

By Zak

ENRICHMENT

We went on a class trip to West Stow Anglo Saxon village to find out more about this time. We discovered how Anglo Saxons constructed their buildings and what materials may have been used. Back in the classroom in DT, we constructed our own class village with the different types of buildings - like the blacksmith's forge, farmer's house and the Great Hall.

We also learnt about Anglo Saxon weaponry - the centre of the shield is called a boss and is made from metal. Only a freeman (a man who was not a slave) was only able to carry a spear to defend himself or to hunt for food or for their skin.

SCIENCE

During our Light topic, we used shadow puppets to help us understand that if an object is brought closer to the light, the shadow gets bigger. The further away the object is moved, the smaller the shadow becomes. The object also needs to be opaque because if it is transparent the light will shine through it.

COMING UP...

- Tuesday 19th July - Year 6 'Shakespeare Rocks' production 7pm - All welcome.
- Wednesday 20th July:
 - Community Assembly 9am
 - Picnic lunch 12pm and break up for summer holidays.
- Friday 2nd September - Inset Day
- Monday 5th September - Start of Autumn term.

Please visit the school website for further information and calendar dates.
