

**What have we been doing in Cherry this week?**

**Literacy** The crunch time is almost upon us! The children have written their own fractured fairy tale play scripts for their topic puppet show work, and have been adding special effects, music and characterization through voices. Every day the children have been rehearsing. On a different note, the grammar focus has been sentence structure, and everybody is now able to discern simple, compound and complex sentences!

**Maths.** Lots of Christmas activities have been the order of the day! All of them have included a key maths focus. The children have been solving logic problems using a methodical approach; revising coordinates when making Christmas cards, and revisiting property of number to solve puzzles involving understanding multiples, factors and prime and square numbers.

**Other Subjects:** All of the year 5 children can finally relax and congratulate themselves on their hard work in putting together their part in the KS 2 Christmas production. They looked and sounded marvellous! Thank you for helping with the costumes.

I think the year 6 children have enjoyed their PSHCE sessions with Mrs Culley this week, and have been very discrete and sensible throughout. I know Mrs Culley has been very impressed with their mature attitude and questions.

**What will we be doing in Cherry next week?**

Next week the children will be performing their topic puppet shows to KS1. If you remember, the puppet man lost all his puppets and KS2 children have been busy organising and creating their own to perform.

**DATES FOR YOUR DIARY AND NOTICES**

- Tuesday 17<sup>th</sup> December Carol Service in the local church 6pm
- Thursday 19<sup>th</sup> Christmas dinner
- Friday 20<sup>th</sup> Christmas Community Assembly

**HOMEWORK**
