Willow

6th March 2015

Willow

It has been another busy week in Class Willow. On Tuesday after school many of the class attended 'Movie Night'. It was a great success and we'd like to say a huge thank you to the BSA for organising and providing some delicious refreshments.

Later in the week we had a message from the detectives in London investigating the robbery of the Crown Jewels which informed us that they escaped over a bridge! The children investigated two possible bridges and thought about the advantages and disadvantages of both. They then started to create their own bridges out of card. The children are getting closer and closer to catching the robbers and I feel we could catch them before Easter arrives!

Have a fantastic weekend.

Miss Silk ☺

## 'Maths'

This week the children have continued to develop their understanding of multiplication. Some have continued grouping images up to 5 and some have moved on to grouping cubes and recording their findings. E.g. 3 lots of 5 = 15

This has developed the children's understanding of terminology associated with multiplication and allowed them to gain a deeper understanding of multiplication before they begin to recite their times tables.

Some children have begun investigating how multiplication is just repeated addition and practised counting in 2s, 3s, 4s, 5s, and 10s.

In our early morning activities this week we have been learning to spell the days of the week. I wonder if your son or daughter can demonstrate this to you?

## Science

In Science this week we investigated and learnt about flowers that can be found in the wild. We then used our knowledge to create a fact sheet about a wild flower. We are going to consolidate all of our fact sheets to create a Non Fiction book about wild flowers.

I wonder if your child can spot any wild flowers near you?
