Willow

Wow! It has been non-stop for Class Willow this week with RWInc, Maths, Science, dinosaur themed activities and beginning to learn lines for our class assembly and the Christmas production!

The children have worked hard and I am really looking forward to performing our assembly for you.

Have a nice weekend.

Miss Silk ☺

## Mathematics

This week the children have been measuring objects in cm and some have even moved onto measuring in mm. They have also been using their addition and subtraction skills to add lengths and calculate the difference between lengths. Next week we will continue to work on addition and subtraction skills.

## Enrichment Curriculum

We have continued to develop our dinosaur scenes this week and added moving mechanisms. We have also enjoyed working on some large dinosaur 'top trumps' cards this week which have involved the children doing a lot of research of their own to find out the key features of certain dinosaurs. I wonder if they can tell you any interesting facts.
