

Class Cherry Weekly Review

Week Ending 21st September

NOTES FROM THE TEACHERS

We wish to say huge congratulations to Year 5 on such a successful first class assembly in Cherry. They were amazing at learning their lines and showing enthusiasm for adding in their own ideas.

This week has also seen the children present speeches on the charity they wish the school to support during this academic year. It was lovely to see them speak maturely about such good causes and to also see them listening respectfully to each other. We look forward to next week's assembly when Milo, Abdullah and Imogen will take their presentations into the whole school assembly to share.

It was lovely to meet many of the Year 5 parents at the 'Essential Guide to the Year Ahead' presentations on Wednesday evening and we hope that the information provided was helpful. For families unable to attend, we can send children home with copies of the Year 5 Curriculum Overview and the weekly timetable.

Good luck to everyone taking part in 'Bourn to Run' this coming Sunday.

Mrs. Smith and Mrs. Faulkner

NOTES FROM THE BSA

To help raise funds for the BSA this term, each class in KS2 will be taking it in turns to run a cake sale outside the school entrance on the last Friday of each month. Our first sale is Friday, 28th September, run by Class Maple.

Please stop by our cake sale after school for some delicious treats. Thank you for your support!

English

This week the children have planned and written their biographies on a famous person. They have developed their research and note-making skills and also how to organise information into a planning frame. As the children began to write, they continued to focus on the structural and language features of their biographies as well as ensuring they were writing to the best of their abilities with interesting vocabulary and correct grammar.

Maths

In our work on place value, we have moved on to look at negative numbers. We have practised ordering negative numbers and finding the difference between positive and negative numbers. We also looked at negative numbers in the context of word problems involving temperature.

Science

In Science we are planning to carry out an investigation about materials that would be good thermal insulators. This will involve us using thermometers and links wonderfully to what they have been learning in Maths.

DATES FOR YOUR DIARY

5th October - Harvest Festival Church Service

5th October - School Quiz Night

8th, 10th, 16th, 17th October - Parent consultations

22nd - 26th October - Half term
