Hazel

Hazel

It has been another exciting week here in Hazel class. We have all thoroughly enjoyed Science Week and learning about lots of different areas of Science that we weren't as familiar with. Thank you to our visitors who made learning come alive for the children. We really appreciate you coming in to visit.

Have a lovely weekend,
Mr Palmer

Curriculum News 5 10

We have continued to look at properties of both 2D and 3D shapes in **Maths** this week. We have also started to look at symmetry by folding squares and identifying lines of symmetry in different shapes.

Our **English** work this week has been based on a film text: 'Something Fishy'. The children have watched a shorted animated film and discussed the key themes. We then looked at how to write extended noun phrases.

We have had a wonderful **Science** week! We have learnt more about our bodies and our skeletons. We also made gloop out of cornflour and water and learnt that it behaves like a solid and a liquid! Thank you to parents for joining us this afternoon.

Notices & Diary Dates

- **Parent Consultations:** The next set of parents evenings are due to take place on the 26th and 28th of March. If you would like to book an appointment for one of these dates then do look out for an email from the office with the details soon.
- **Weather:** With the fairly unpredictable weather we have been experiencing in mind, please ensure your children are bringing in clothing for all occasions into school with them. More recently, the weather has gone from glorious sunshine to windy and a bit chilly so please make sure your child has clothing befitting of the ever-changing weather.
- Tuesday 26th & Thursday 28th March – Parent Consultations.
- Friday 29th March – Easter Service (at the church)
- Friday 5th April – End of Spring term.

Homework

For homework this week, children have been asked to complete a Science experiment of their choice and feedback their results!
