

Weekly Review – Willow Class

Friday 17th January

On Monday we were treated to a Chinese Music workshop in celebration of Chinese New Year. Although a week or so early, we enjoyed learning about it and also made red lanterns which are now decorating the classroom. In Science we have continued learning about everyday materials. The children investigated which material would be the strongest for house of the Three Little Pigs. They predicted which material they thought would be best and then tested it with a hairdryer. The Lego bricks won!

Home Learning- This week the Home Learning task is Maths. The children have worked hard on addition and subtraction this week and revising number bonds to 10 and 20. In History we are learning about Mary Seacole, another significant and inspirational person.

As a class we are enjoying reading 'The Enchanted Wood' by Enid Blyton. I am pleased that the children love stories so much!

As you will know, we are having a 5p challenge bottle again. Willow Class won this competition last year so let's see what we can do!!
