

Weekly Review – Hazel Class

25th September 2020

THIS WEEK

In Maths, we have been looking at place value by writing numbers, in chalk, outside, in a place value grid. We have also been comparing numbers using the greater than, less than and equals to sign.

In English, we have been writing our seaside themed shape poems, which are ready to go on a display alongside our beach themed collages that we have made in Art!

In Geography, we have been learning about the layers of the rainforest and which animals we might find in each layer. It was lovely to hear how much Hazel Class already knew about animals from the Rainforest!

NEXT WEEK

In Maths, we are going to be counting up in 3's, continuing to work on our place value knowledge and comparing number sentences.

In English, we are going to be starting our new unit of work on character descriptions where we will be re-reading and writing about Wiffy Wilson.

In Science, we are also going to be starting our new unit of work about the Earth's Geographical Features.

NOTICES & REMINDERS

Slips with your child's current reading level will be sent home today. When there is a change to their reading level, we will send a new slip home.

Please only send your child to school with water in their bottle, not juice or squash. Thank you.

HOW YOU CAN HELP:

Continue to read with your child and ask questions about the story/book that they are reading.

Homework

This week's English homework is all about rhyming words. Click on the link or copy and paste it into your web browser to access this week's homework: <https://uk.ixl.com/ela/year-2/complete-the-poem-with-a-word-that-rhymes>

Alternatively, ask your child to write down as many rhyming words that they can think of. They could use objects from around the house for inspiration.

This week's spelling homework is to write as many words as you can think of that have the sound /s/ in them but are spelt with a 'c' before an e, i, and y. For example: cell, face and space.

And don't forget to keep reading!

Practicing our place value outside using chalk
