

# Weekly Review – Rosewood Class

Friday 16<sup>th</sup> October

## THIS WEEK

This week we have been developing our knowledge of ordering 4 digit numbers and we have looked at some 5 digit numbers too. We have started learning to round to the nearest thousand too. In English we have been developing our use of similes particularly to describe the emotions. We are writing our own poems based on styles we like too. In Science, we have been developing our knowledge of electricity by identifying conductors and insulators in everyday objects. We have also been enjoying our mile walk and spending more time in the nature reserve together.

## COMING UP NEXT WEEK

Some of the exciting things we will be working on next week include:

- \* **Maths**- learning about negative numbers
- \* **History**- learning about the Mesolithic part of the stone age and the Mesolithic site of Star Carr in Yorkshire.
- \* **English**- reading and analyzing more of our class novel Cloud Busting

## NOTICES & REMINDERS

As a class we are working a lot on developing the children's speaking and language. We are talking about projecting our voices when speaking and listening carefully and learning from the ideas of others. To develop what we are writing we are rehearsing a lot of our ideas by talking them through because what children say, they will be able to write.

To support them with this, it is great to encourage your children to talk in full sentences using the most accurate vocabulary they can.

Please ensure that your children have a water bottle in school every day. Thanks

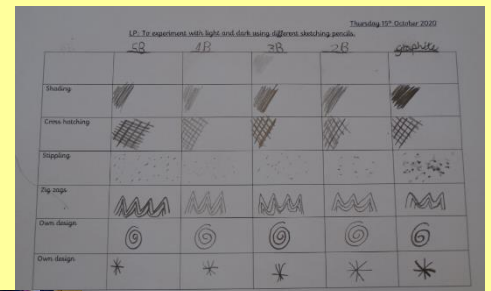

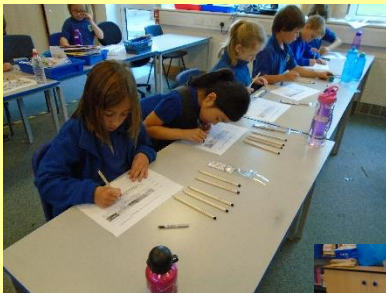

## HOMEWORK

Daily Reading

1000 points on TT Rocks a week

Weekly spellings
