

Weekly Review – Hazel Class

THIS WEEK

This week in Maths we have finished our unit of work on Money and have now started working on identifying and adding equal groups. In English we have been story writing and I have been very impressed with the work that everyone has produced! It's been lovely to see how their stories have evolved over the last few weeks.

In Science we created our own electrical circuits to make a lightbulb light up! Hazel Class have also done some wonderful work with Mrs. Latham in Art.

On Tuesday we started our book advent where, each day, there is a new story to unwrap, which I then read to the class as part of our story and book talk. These books are then put into our book corner ready for the children to read.

NEXT WEEK

Next week in Maths we will be making our own arrays and practising our 2, 5- and 10-times tables.

In English we are going to be writing descriptions about a setting.

In Science we are going to be learning about Thomas Eddison as well as talking about static electricity.

And so much more!

NOTICES & REMINDERS

Reading books can be returned to school on either a Monday or a Thursday. White Reading Records can be brought in with the books too.

HOW YOU CAN HELP:

Continue to read with your child and ask questions about the story/book that they are reading.

Homework

This week's spelling homework is to practise the following common exception words and to try and put each one in a sentence.

Find, mind, behind, old, cold, gold, hold, told, every and everybody

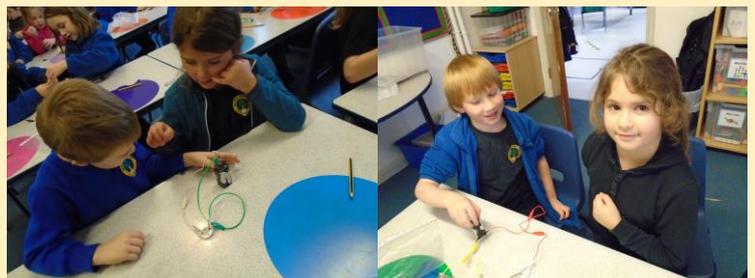

This weeks' times tables homework is to practise the 2- 5- and 10 times tables.

And don't forget to keep reading!
