

Weekly Review – Hazel Class

Friday 11th December 2020

THIS WEEK

This week in Maths we have been practicing our 2, 5- and 10-times tables as well as making arrays.

In English we have been helping Bill find his Christmas list and I can very happily say that he has now found it, all thanks to the fantastic descriptive writing by Hazel Class!

In Science we talked about static electricity and in Geography we wrote a letter to a Rainforest explorer to tell them all about what we have learnt this term.

We have continued to enjoy our book advent and have even been starting to make links between some of the books that we have read, during book talk.

NOTICES & REMINDERS

Reading books can be returned to school on either a Monday or a Thursday. White Reading Records can be brought in with the books too.

Christmas Lunch is on Tuesday the 15th.

HOW YOU CAN HELP:

Continue to read with your child and ask questions about the story/book that they are reading.

NEXT WEEK

Next week in Maths we will be continuing to work on our understanding of times tables and we will be using arrays to make an amount.

In English we are going to be looking at the poem 'A Visit from St. Nicholas' / 'Twas the Night Before Christmas' by Clement Clarke Moore and creating our own versions.

There will also be lots of Christmas fun next week, including a Christmas pantomime, Christmas lunch and some Christmas themed craft activities!

And so much more!

Homework

This week's spelling homework is to practise all of the spellings from this half-term.

This weeks' times tables homework is to continue practising the 2- 5- and 10 times tables.

And don't forget to keep reading!

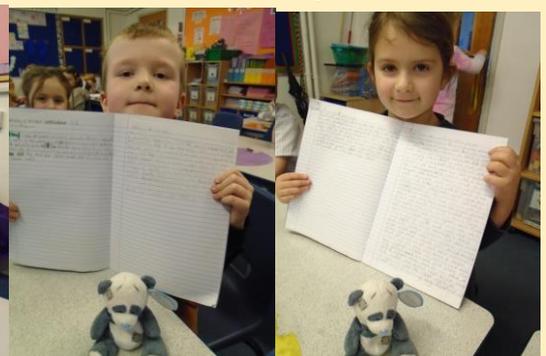

Our book advent and class Christmas tree.

Some of Hazel Class with Bill and his Christmas list

Some of our fantastic pieces of descriptive writing.
