

# Weekly Review – Hazel Class

## THIS WEEK

In English we have planned and written a set of instructions about how to make a Bug Hotel which we then followed in order to make our very own Bug Hotel on Friday! In Maths, we have been revising our knowledge of multiplication and division by looking at multiplication as repeated addition and looking at the links between multiplication and division.

As well, we have also been learning about Neil Armstrong to continue our unit of work about Explorers in Space and we have been learning about Minibeasts and Microhabitats in Science.

## Notices and Reminders

On swimming lesson days (Monday and Thursday) please ensure that your child does not wear any earrings and that their hair is tied back.

Please also ensure that all of your child's school clothes are named, especially their jumpers, cardigans and fleeces.

## NEXT WEEK

In English, we will be creating our own board game and then writing instructions for how to play it. In Maths, we will be continuing to revise our knowledge of multiplication and division.

In addition to this, we will also be learning about the key events in Neil Armstrong's life and in Science we will be learning about four world habitats: the ocean, the arctic, the rainforest and the desert.

As well as so much more!

## Homework

Please continue to read with your child every day, with a focus on their understanding of the story/text that they have read. Please ensure your child continues to practise their 2,3, 5, and 10 times tables on TTRS.

This weeks' spellings to practise are: funny, funniest, worry, worrying, reply, replied, copy and copied.

Some of the fantastic pieces of Science work about Minibeasts and Microhabitats.

Making our Bug Hotel!
