

## CEDAR HOMEWORK TOPIC WEB

### Computing

Take part in the world's largest treasure hunt by exploring <https://www.geocaching.com/play>  
There are millions of hidden treasures waiting to be found!

Test your knowledge of the world using <https://world-geography-games.com/> Learn about oceans, capital cities, flags and lots more!

### Maths

Calculate the distance from your house to Cambridge, the different capitals within the UK and a faraway location of your choice and how long it would take to travel to each location.

Create a treasure map for you house, garden or local park and use co-ordinates to identify the location of five hidden treasures.

### History

Find out about any famous people/interventions that are linked to your area. What difference have they made to the world?

### ART/DT

Take some photographs of a local area and identify the physical and human features.

Build a model of your high street or favourite local area to identify key buildings/amenities and their location.

Paint a map of your house and street on to a rock/pebble.

### English

Write a tourist guide for your local area persuading people to visit using the features we learnt last term!

Create your own postcard of a feature of interest, which you love or is special to you. Write about why you like it and send it to us at school!
